

# Your health center deserves **more**

## Access sustainable revenue and partners who relieve the burden

Community health centers are constantly asked to do more. But revenue isn't keeping up and your team is stretched beyond their limits.

Practicing team-based care, earning sustainable revenue, and serving more people in need seem imperative, but impossible. That's where Yuvo comes in.

## Finally, resources tailored to your community

Yuvo Health is designed for community health centers. We bring a suite of services that expands what you can do in a day, along with a network of partners who get it—all with zero upfront cost.

**"Community health centers are key to healthier communities, but they're stretched so thin. It's time to bring the focus back to CHCs and give them the support they need."**

**Cesar Herrera, CEO and Founder**  
Yuvo Health

# Sustainable revenue and partners who ease the burden

Leverage new payment systems, scalable infrastructure, and meaningful partnerships for a seat at the table for value-based care.

## Leaders who've been there

Every member of our 100% BIPOC founding team has been either a CHC patient or Medicaid beneficiary. We remain united in a shared vision of a world in which every person is finally free to live their healthiest life.

### Yuvo Leadership Team
